GLOBE Art

A graphic for the e-LSEE project. It features a large stylized 'E' logo with a globe inside, surrounded by the text "The GLOBE Program" and "EU Socrates Minerva". To the right, a map of Europe is shown with several countries highlighted in red and blue. Below the map, there are several small images: a sunset, a person's face, and a landscape. Text on the left reads "Learn about the Earth, teach about the Earth!" and "A set of e-learning activities for interactive learning on the Web. Based on the GLOBE Program database and website. These activities support Geography, Biology, Physics, Chemistry and Information Technology in and out of school. This is a free educational resource in 6 languages, created by European teachers." At the bottom, it says "© partner institutions of the e-LSEE project, Commission of European Communities, the GLOBE Program".

*Learn about the Earth,
teach about the Earth!*

A set of e-learning activities for interactive learning on the Web. Based on the GLOBE Program database and website. These activities support Geography, Biology, Physics, Chemistry and Information Technology in and out of school. This is a free educational resource in 6 languages, created by European teachers.
