

This image shows The normalized difference vegetation on 23-02-11

This image shows The normalized difference vegetation on 24-02-11

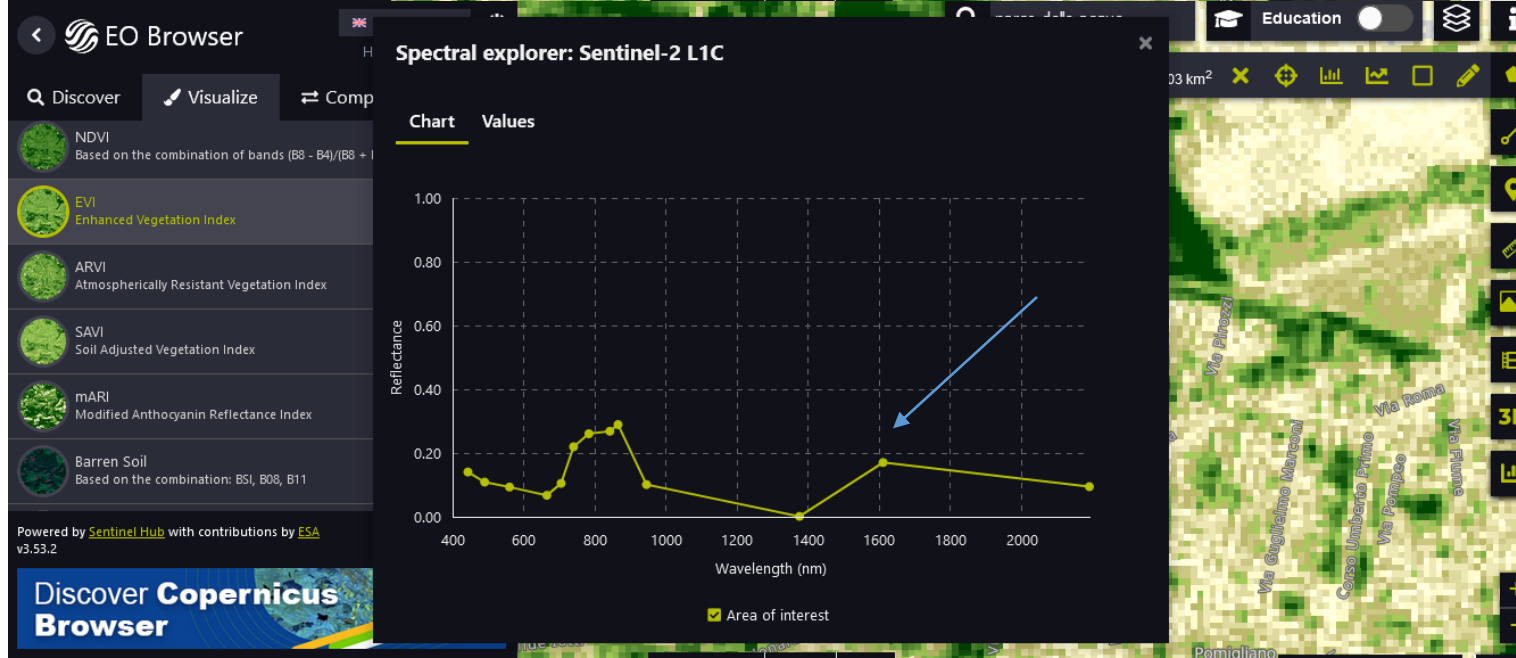

The image represents the comparison between our green area of interest on 23-02-11 (upper image) and on 24-02-11

(lower image) The comparison shows the difference in shadow of green and in number of pixel . The leaf and other elements of enviroments are different

difference in the reflectance

This image shows The normalized difference vegetation on **23-02-11**

This image shows The normalized difference vegetation on **24-02-11**

This is green area of interest with students at work
