

# Changes of **Frangipani**( **Plumeria rubra**)

from **October to January in Kinmen**

**Frangipani** grows in subtropical regions

blooms from May to September every year , while  
Frangipani in tropical regions can bloom all year  
round.

- The suitable growth temperature :  $15^{\circ}\text{C}$ ~ $30^{\circ}\text{C}$
- Insolation affect flowering period

## **Conclusion**

The temperature will be about  $20^{\circ}\text{C}$  from October to January in Kinmen

The flowering period of  
Frangipani will vary with the  
insolation. Because Kinmen has  
sufficient insolation from July  
to early October, the flowering  
period of Frangipani will be  
longer.

Insolation will be Frangipani flowers  
in Kinmen will drop their leaves  
faster because of the strong  
wind.
