

The relationship between kinmen's temple and CO₂

This study states:

- Observe the difference in CO₂ values between the inside and outside of the temple.
 - ➔ CO₂ inside the temple > CO₂ outside the temple.
 - ➔ The CO₂ value is related to the worship habit of Kinmen people.
 - ➔ Temple structure can affect CO₂.
- Record the CO₂ values of Ximen Waiwu Temple for one week.
 - ➔ The CO₂ value is higher on the first day of the lunar calendar.
 - ➔ The people of Kinmen will regularly go to the temple to worship on the first and fifteenth days of the lunar calendar.
- Compare the CO₂ value of Ximen Waiwu Temple with the wind speed.
 - ➔ No correlation was found.
 - ➔ Ximen Waiwu Temple is not ventilated.
