Not Fahrenheit but Celsius, that's for sure!

got a PPP connection, gonna make it run
got a bookmark on the browser, makes it easy to find
and we surf into the server, doesn't take much time

GLOBE kids around the world, GLOBE kids

We got a study site, weather site, water site, website
GLOBE homepage, here we come
We got a landcover/biomass study site, web site

Not lower case but capitals, we know what to do
