

Name _____

Spring is coming!

Instructions:

- Go outside and look around. The seasons are changing!
- OBSERVE. Look, smell, feel, and listen. What do you notice? Tell someone near you one thing you noticed about how things are changing right now.
- Find a tree branch and look closely. Do you see the buds? Sketch what it looks like in the first box.
- How do you think the bud will look when it opens? Sketch your prediction in the second box.
- What will it look like when the spring ends? What will it become? Sketch your prediction in the final box.

Sketch what a bud
looks like **now**.

First

What do you think the bud
will look like **when it opens?**

Then

What do you think it will look
like **at the end of spring?**

Finally
