

UNEP @ Spring 2022 GLOBE Tree Height and Land Cover Intensive Observation Period

Outline

- UNEP – introduction
- Nature and biodiversity loss - nature action
- Data at UNEP
- Collaboration with NASA GLOBE

1. UNEP introduction

UNEP overview

- United Nations Environment Programme (UNEP).
- Established in 1972 in Stockholm.
- Part of the UN family.
- Responsible for coordinating responses to environmental issues within the United Nations system.

UNEP's mission and objectives

UNEP's **mission** is to provide leadership and encourage partnership in caring for the environment by inspiring, informing, and enabling nations and peoples to improve their quality of life without compromising that of future generations..

UNEP works on delivering transformational change for people and nature by drilling down on the root causes of the three planetary crises of **climate change, nature and biodiversity loss, and pollution and waste.**

2. Nature and biodiversity loss – nature action

Our commitment to nature

1. An economically and socially sustainable pathway for halting and reversing the loss of biodiversity and ecosystem integrity is established.

2. Sustainable management of nature is adopted and implemented in development frameworks.

3. Nature conservation and restoration are enhanced.

3. Data at UNEP

World Environment Situation Room (WESR)

3. Collaboration with NASA GLOBE

NASA GLOBE – UNEP collaboration agreement signed in April 2019

Mutually disseminate
information about scientific
and educational activities.

Disseminate data and data
products.
