(Project Title)

Oppressive Logging is a monster Threaten the environment

Procedures)

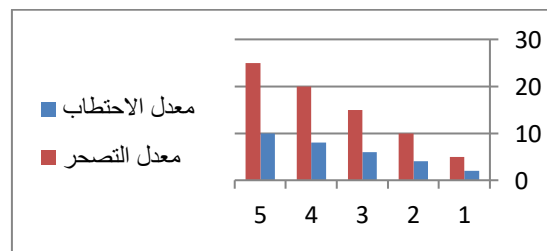

- 1 Increasing of some places exposed to oppressive logging
- 2 -Take picture for damaged areas from oppressive logging .
- 3- Measuring the size of desertification and polluted areas from oppressive logging

Pictures

(Data Graphs & Pictures)

Studying the relationship between size of logging and the
Desertification and pollution
oppressive logging % 35
desertification %45
The air and environment pollution %14

(Problem or Goal)

Cutting wood ,desertification and air pollution

(Hypothesis)

Increasing of oppressive logging leads to more desertification and air and environment pollution

(Variables)

- 1- The mount of oppressive logging
- 2-The average of desertification area from oppressive logging

Name of participating

1- Faisal Ali Al Garny : **students**

2- Waleed Awadh Al Garny

**Teacher supervisor :Ali
Mohammad AlGarni**
