

GLOBE Asia – Pacific Regional Meeting

May 6-9, 2018
Hanoi, Vietnam
Deborah Rebluud Nagata

PALAU

Highlights of Activities in 2017-2018

- I. Completed and Approved Environmental Science Curriculum including Globe Program
- II. Secured Funding for Teacher's Training and Implementation Materials
- III. Negotiated with Partners to support and for funding of Globe Teacher's Training and Implementation
- IV. Secured funding for STEM Fair 2018 Prized (2017 projects were 560 and 2018 went to 850)

Highlights.....

- V. Mosquito Training: Through US Embassy-Palau with Dr. Krisanadej: 4 agency partners and 16 youths

PARTNER AGENCIES

1. EBIL SOCIETY – For land and water exploration

PARTNER AGENCIES

- 2. Palau National Weather Station:** Negotiated and secured support for scheduling school visit to the schools.
- 3. Palau Conservation Society:** Palau Ridge to Reef Project expand from grade 5 to all grades 5 to 9th.
- 4. Environmental Protection Board:** Support schools and community in planning and organizing Earth and Water Day activities.
- 5. Palau U.S Embassy: Sponsored Mosquito Protocol Training**

6. Palau Coral Reef Center: Local scientists who does demonstrations and tours to schools' science club students on marine researches.

7. **Palau Bureau of Forestry:** Supports Schools and Community Organizations on providing education awareness on watersheds and forests conservation areas.

8. Palau Community College: Collaborated with PCC for support and to secure fund for STEM fair annually.

CHALLENGES:

1. Getting on Globe e-training going (Due to fiber-optic adaptation internet still have its ups and downs)
2. Getting Dr. Desh or somebody from the Region to come to Palau in July 2018.

MOVING FORWARD:

1. 10 science teachers to complete e-training
2. Globe teachers and partners training before September 2018
