Water Bodies Challenge

March 22 – April 22

Make a **video** or create a **StoryMap** online about **lake, stream, river, spring, seashore** or any other water body that is close to your home

- You can as well do both and upload your video to your StoryMap!
- Submit both through an [online form](#) by **April 22**.
- Follow the requirements and receive a GLOBE certificate and badge.
- The best videos and StoryMaps will be presented to the international community at Water Bodies online meeting on May 19.

Join the webinar

GLOBE Program Europe and Eurasia Region Office is launching the Water Bodies Challenge by organizing a webinar

“GLOBE Celebrates Water” on March 22, at 3 pm CET

You will learn about the Water Bodies Challenge activities and events. We will talk about how to make and submit a student video, how to create a StoryMap and what resources GLOBE offers to learn about water. There will be time for your questions as well.

Register [for the webinar](#)

March 22

How to participate: StoryMap

- Mention GLOBE Program and answer following questions in the StoryMap:
 - *Why do you like to observe the water body you selected or collect data there?*
 - *What is the importance of the water body for environment and community?*
- Add at least 3 images of the water body to your StoryMap
- Add a map of the area where the water body is located
- StoryMap should be in English

Check a nice example of a StoryMap: <https://arcg.is/iy1PG>

Create your own at <https://storymaps.arcgis.com>

How to participate: Video

- Make a max 2 min long video
- Mention GLOBE Program and answer the following questions in the video:
 - *Why do you like to observe the water body you selected or collect data there?*
 - *What is the importance of the water body for environment and community?*
- You can talk in English or in your own language. In both cases, add English subtitles to the video or write down the transcript of what was said on the video
- Send us a [media release form](#) signed by each adult and by a parent of each student in the video
