The GLOBE Program

# Europe and Eurasia Regional Meeting

October 26-29, 2020

Virtual

Education

- Education Working Group has created a
revised trainer and mentor trainer
process. This process is being communicated
to the community and should be ready
for final implementation in 2021.

STEP 1 APPLICATION AND QUALIFICATION REVIEW
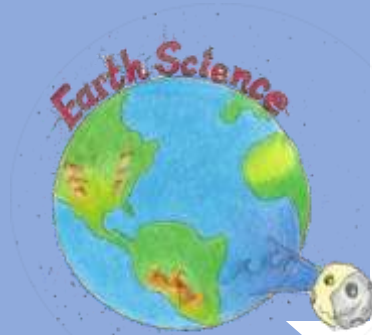

T/MT Flow Chart, Page 1 of 3

Protocol Criteria Ranking

- Supportive for the study and understanding of an environmental issue/problem
- Supportive for the understanding of the science behind major UN, international and national conventions and SDG

- Linked to school curricula
- Supportive of school to school collaborations at the national and international scales

Easiness of implementation

Data requirements: quality and volume

Implementation cost

- Raising environmental awareness
- Facilitating citizen science
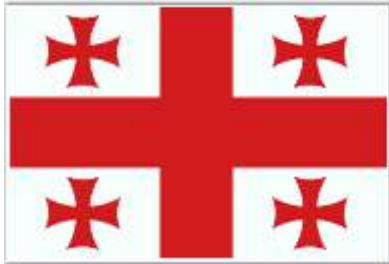

Science   **Education**   **Implementation**   **Society**
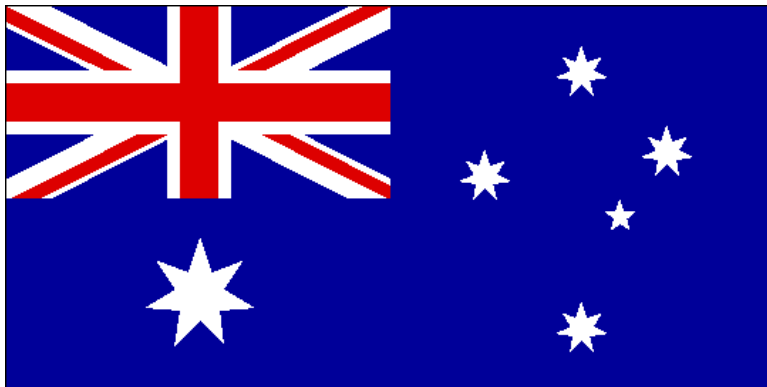

Welcome to the GLOBE Family

Georgia

The Slovak Republic

- 123 Countries

- Across 6 Regions

Community

- The Community Diversity, Equity, and Inclusion Task Force made the following recommendations:

  - ✓ Create DE&I Working Group
  - ✓ Administer DE&I Assessments
  - ✓ Build a DE&I Standard Operating Procedure
  - ✓ Develop DE&I based Resources
  - ✓ Establish DE&I Training Opportunities
  - ✓ Form DE&I Supportive Partnerships
  - ✓ Find Funding for DE&I
  - ✓ Communicate DE&I Initiatives

Alumni

- Evaluation Working Group will prepare report on the GLOBE Alumni Interviews pilot project
- Upload the Alumni set of questions on the GLOBE website (in a Survey Monkey or Google form format) to collect more responses
- Collaborate with the GIO to update the Alumni page and to identify a mechanism to keep Alumni records so that this important group can remain engaged in the Program

Ms. Sirilak Chumkiew

Researcher/PhD

Suranaree University of Technology

Technology

- New developments being released shortly:

- A new version of the GO app with the existing protocols combined with the GLOBE Data Entry app

Observers

Trained Users

Technology

- New improved navigation

Web Architecture – Top Navigation

Existing

About	Get Started	Get Trained	Do GLOBE	GLOBE Data	Community	News & Events	Support

Proposed

About	Get Started	Training & Tutorials	Protocols	Data	Research & Resources	Campaigns	Community	News & Events

Technology

- New improved navigation

Campaigns

- Campaigns will continue with all safety precautions followed wherever students and others collect data.

- Cloud Challenge begins this week for a month.

- New combined GO app may increase data entry

International Virtual Science Symposium 2021

- International Virtual Science Symposium was launched in September.

- Special thanks to IVSS 5 Year judges, planning team, GIO staff, WGs, RCOs, this could not be done without you!

- We look forward to receiving reports from students/teachers in the spring of 2021

Strategic Plan

- GIO uses the strategic plan with WGs, and other groups to move the program forward.

- As a community, we continue to work toward the performance measures.

- These measures will be revised and updated in fall 2020 with the WGs and Dr. Valerie Williams, UCP Evaluator.

- Here are 2 examples of 2019 data

Strategic Plan
2018-2023

2018-2023

Strategic Plan

Status Symbol	Description	(2018) Percentage of Performance Measures	(2019) Percentage of Performance Measures
	On target, making progress	30%	27%
	Achieved performance target	34%	42%
	Attention	7%	4%
	Not started, 1st year collecting data	28%	27%

Strategic Plan – 2019 Highlights

Survey Response
- 13% increase in survey response among partners/CCs

Education Goals
- The number of **available** GLOBE trainers in all regions increased since 2018 and the number of **active** trainers increased in most regions.

Science Goals
- The percentage of scientists that reported having used or referenced GLOBE data in the past year exceeded the 2022 performance target of 20%.

Community Goals
- 80 new members joined the GLOBE community.

Technology Goals
- The percentage of GLOBE community members that use GLOBE science data entry often (at least once a month) exceeded 2022 performance target of 30%.

Communication Goals
- The percentage of GLOBE community members that reported sharing information about GLOBE with a new audience increased since 2018.
