Program Implementation, International Cooperation in GLOBE Network, and Activities over Past Year (categorized by GLOBE Strategic Plan 2018-2023 Goals):

- Education
 - Develop new GLOBE curriculum materials that are aligned with the Omani national curriculum.
 - Provide professional development opportunities for GLOBE Teachers in Oman.
 - Encourage GLOBE students in Oman to participate in international GLOBE competitions and events.
- Science
 - Expand the GLOBE Program's research activities in Oman.
 - Collaborate with Omani scientists on the development of GLOBE protocols.
 - Share GLOBE data with Omani researchers and policymakers.
 - Promote the use of GLOBE data in Omani schools and universities

REPORT FOR 2023

- Community
 - Engage Omani citizens in GLOBE activities by providing opportunities for citizen scientists to participate in GLOBE research.
 - Develop public outreach materials about the GLOBE Program in Arabic.
 - Partner with Omani community organizations to promote environmental education and awareness.
 - Host GLOBE events and conferences in Oman to bring together GLOBE participants from around the world.
- Technology
 - Develop new online tools and resources for GLOBE participants in Oman.
 - Translate GLOBE website and materials into Arabic.
 - Explore the use of mobile technology to collect and share GLOBE data.
- Communications
 - Increase communication with GLOBE participants in Oman through social media and other online channels.
 - Develop a communication plan to promote the GLOBE Program in Oman.
 - Share GLOBE news and stories with Omani media outlets.
 - Translate GLOBE Program materials into Arabic

Plans and Ideas for Next Year:

- Develop new GLOBE curriculum materials that are aligned with national curriculum standards.
- Provide professional development opportunities for GLOBE Teachers.
- Encourage GLOBE students to participate in international GLOBE competitions and events.
- Increase the number of GLOBE schools reporting data each year.
- Increase the number of GLOBE schools participating in GLOBE research projects.
- Increase the number of GLOBE schools using GLOBE data to inform their curriculum and instruction.
