@GLOBEireland

Help NASA by recording cloud
features and weather

Explore the connection between tree
height, landcover & climate science

Measure air pollution
at your school

Discover spring and fall with
GLOBE tree observations

Explore microplastics in
your local waters

Investigate the relationship between
landcover and surface temperature

Explore and plan climate actions
around your observations

Examine carbon sources and
sinks on school grounds

Measure rainfall and learn
about flood resilience

Explore local river ecosystems
