

How hot is your school? Students and teachers all around the world, GLOBE needs your help!

"Urban Heat Island Effect/Surface Temperature" Intensive Observation Period (IOPs) October

Study different surfaces at your school.
How hot is your playground? sports fields? or parking lot?
Does painting parking spaces at the high school make the parking lot hotter or cooler?

Date	Element of the Webinar	Webinar Topics
Sept 30, 2024 3-4pm ET. <i>Webinar 1</i>	UHI-IOP Kick of Webinar	Science of the Surface Temperature IOP Intro
Dec. 02 2024 3-4pm ET. <i>Webinar 2</i>	Participant Engagement in GLOBE Surface Temperature Data Collection	Citizen Science and GLOBE Surface Temperature IOP: "Where you come in "
Feb. 27, 2025 3-4pm ET. <i>Webinar 3</i>	Application Areas of the UHI-IOP Campaign	Using NASA Resources to measure Surface Temperature and Extreme Weather Events: A Global Perspective
April 28, 2025 3-4pm ET. <i>Webinar 4</i>	What to do with your data?	Sharing your results and findings: Focus on

Submit your data to
GLOBE.GOV

Collect as often as
you can during
October
