

NASA DATASETS IN 3 MINUTES OR LESS

Workshop Focus:

Join us to learn how to access, download and use NASA datasets in your instructional practice. We'll show you how to easily access NASA maps, graphs, and tables from the My NASA Data website, Earth System Data Explorer.

When: Tuesday March 26th 4-5 pm (pacific)/7-8 pm (eastern)

Your Hosts:

NASA Langley's Angela (Angie) Rizzi
UC Berkeley's Tracy Ostrom

Benefits:

- This workshop will not only go through the step-by-step process of accessing and downloading NASA Earth system data, but we'll show you how to upload and manipulate the data in a spreadsheet.
- We'll also give you ample time to play around and find your own data sets and we'll provide real-time support.
- With NASA data sets you can support your students engaged with research projects by showing them the vast amount of data available to them.
