

NORTH AMERICA PHENOLOGY CAMPAIGN

The North America Phenology Campaign is focused on monitoring and reporting plant phenology data to contribute to GLOBE's long-term environmental record. All the details are on the **campaign webpage**.

WHAT TO EXPECT

- Webinars for learners and educators
- Resources that support the content
- Information about phenology-related opportunities
- Certificates and badges for active schools/organizations

GET STARTED

GLOBE eTraining

Complete the Intro to Biosphere and Tree and Shrub Green-Down and Green-Up eTrainings.

Define Your Site

Find guidance to define your site and choose a tree to measure.

Gather Your Supplies

Grab your data sheet and a ruler (in the spring) or a color guide (in the fall).

REGISTER TODAY!

The GLOBE U.S. Coordination Office will keep you informed about webinars, resources and more through a regular email, and will provide certificates and badges to registered participants. Register on the campaign website at the QR code above.
