

WHAT IS GLOBE?

The GLOBE* Program is a science and education program that provides a way to meaningfully contribute to our shared understanding of the Earth system through place-based, authentic research.

GLOBE provides opportunities to

Participate in
citizen science

Develop data
literacy

Share
research

*GLOBE = Global Learning and Observations to Benefit the Environment

GET STARTED

- Create a free GLOBE account
- Get trained in protocols through eTraining

Links to tips and resources to get started with GLOBE

bit.ly/GLOBE-get-started

ENGAGE

- Download the GLOBE Observer app, a citizen science app that complements NASA satellite observations
- Join a campaign to participate in community science investigations:
 - North American Phenology Campaign
 - Urban Heat Island Intensive Observation Period
- Share GLOBE research through the U.S. GLOBE Student Research Symposia or International Virtual Science Symposium
