

Task 1 – My Tree

- 1) Select a tree:
 - Close to your school or home, so that you can observe it often
 - One of the 7 species of the campaign
 - With at least one branch that is positioned low so that you can observe the buds closely.
 - The tree should not be shaded by a building (Ideally the tree-building distance is more than the height of the building)

- 2) Describe the tree and the site where it grows:
 - Take GPS coordinates and write down altitude as well
 - Find out what is the Latin name of the tree species (e.g. *Corylus avellana* for hazel)
 - Name the tree (e.g. Hazel 1)

- 3) Take picture(s) of the tree using GrowApp.
 - The use of GrowApp is very easy and intuitive. See the [manual](#) on the GLOBE website.
 - Share your picture at the [Discussion forum](#).

The task should be completed by February 28th.
