Comments:

This wasn't as low cost as I thought it would be from the catalog description. Also, my class periods are only 45 minutes long and I have a lot of behavior problems in my classes. Plus, I usually pay for my own supplies. It would be great to be able to do all of these things. I just don't see how I can yet.

Seems difficult to get involved. Was hoping for ideas and lesson plans, not a research project.

Got me thinking. Thank you!

Great info! Wonderful ideas to implement in class. Thanks!

If I can get involved, I am in. Still have a lot to learn.
