GLOBE Green Down Data Sheet and Field Guide

Name: _____ Site Name: _____

Plant Genus: _____ species: _____

Plant Common Name: _____ Label: _____

Growing Season Cycle Number: 1 2 3 Year: _____

Green Down Measurements

Examine each of your four leaves or shoots. Use the GLOBE Plant Color Guide to determine the dominant color and record the color code.

- If the leaf has more than one color, only record the color that takes up the greatest percentage of the leaf.
- If leaf is snow covered, report “snow covered” or “S”.
- If leaf has fallen, report “fallen” or “F” and stop reporting for that leaf.

Date (MM – DD)	Leaf 1	Leaf 2	Leaf 3	Leaf 4
