GLOBE Agriculture Campaign

Field Cover Intensive Observation Period - Tier 2 Data Collection

These additional details will supplement the data taken using the GLOBE Observer app. Some information may be observable from the edge of the field, but only enter the field for additional measurements if you have permission to do do so. Use one form per field observed. If you have not yet taken a Land Cover observation of the field with the GLOBE Observer app, please do that first. You can enter this information online at forms.gle/vYxY8SF2aQAywZDj8 (or scan the QR code at right) or send a clear photo/scan of the form to globeobserverhelp@lists.nasa.gov.

Indicate which GLOBE Land Cover observation these additional details are connected to by entering the time and location for the corresponding observation.

Date: _____ Time:_____ Time zone (UTC or specify): _____

Latitude: _____ Longitude: _____

Crop details: **(Fill in the information you know – it's okay to leave blanks.)**

1. What kind of crop is growing? (if known) _____

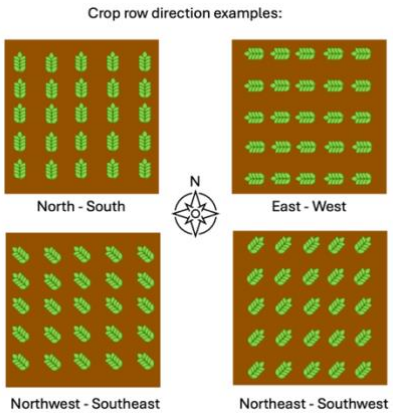

2. In which direction are the rows oriented?

   North-South ☐ East-West ☐

   Northwest-Southeast ☐ Northeast-Southwest ☐

   Other (Description or a compass bearing):

   _____

Do not enter the field to collect the below data points unless you have permission to do so.

3. What is the measured height of the crop? _____ (centimeters)

(Choose a plant representative of most of the plants in the field to measure with a meter stick/tape measure.)

4. How far apart are the rows? _____ (centimeters)

5. How many plants per meter in the row? _____

6. Do you know any other relevant details about the field that might be useful to scientists? If so, add them here. _____

_____

_____
